

NEW MEN

EMOTIONAL AND SOCIAL INTELLIGENCE FOR THE
DEVELOPMENT OF NEW MASCULINITIES IN THE
WORKPLACE

NEWMEN

NEWMEN

NEW MASCULINITIES
THROUGH EMOTIONAL
& SOCIAL INTELLIGENCE

The third Partner Meeting of the Erasmusplus funded project NEWMEN in Bologna was organised on 18th of April. The meeting was hosted by STEPS, the Italian partner of the project.

The main goal of the meeting was to revise all work already done, plan the upcoming activities, discuss the dissemination and outreach strategy. Project partners officially started the implementation of the 2nd project result, the 'case studies', and the last one called "TOOLKIT", which will be built on 5 thematic areas.

Funded by
the European Union

NEWMEN podcasts

The project's first output consists of a qualitative and quantitative analysis of gender inequality in the NEWMEN participating countries. To this end, national and joint reports were produced with the content of articles, studies, official statistics and expert discussion groups on the subject.

In addition, 20 podcasts on the most essential soft skills to reduce the gender gap in these countries have been created and are available in English, German, Italian, Spanish, Dutch and Swedish.

The picture on the left shows the thematic area each country has covered in a podcast. Click on NEWMEN's website link below and listen to the podcast you would like to learn more about. Enjoy!

NEWMEN Case studies

Partners are now developing a series of videos focusing on Emotional Intelligence. The videos cover case studies of the countries. Vaev, partner from Austria, with the support of the other partners, will supervise the development of videos. 18 Videos will be created by the end of the process.

The objective is to offer accessible and easily comprehensible educational material for (HR) managers, managers, etc., to include a gender perspective in their workplace culture.

NEWMEN TOOLKIT

The NEWMEN partners will start develop the last result, called the “TOOLKIT”. In this phase of the project, we are going to create a bank of resources and educational techniques based on Emotional Intelligence and Alternative Masculinities. The goal is to stimulate, through cooperative/dynamic activities the creation of respectful, egalitarian & inclusive workspaces. All materials will be applied in a training with at least 10 companies planned in autumn 2023, which will help us to validate the material
